

MongoDB tasks:

- 1) Install MongoDB community edition on your system and use the mongo shell to create a new database named 'foodieApp'

Ans:

Create database foodieApp

Use foodieApp

- 2) Inside the 'foodieApp' database, create a collection named 'restaurants' and insert a document for a Zomato-style restaurant with fields: name, cuisine, rating, and location.

Ans:

Create restaurants collection and insert first document

```
Db.restaurants.insertOne({  
  Name: "spice garden",  
  Cuisine: "north Indian",  
  Rating: 4.5,  
  Location: "Ahmedabad"
```

```
}}
```

3) Insert three more restaurant documents into the 'restaurants' collection, making sure to use at least one field with an array data type (for example, a 'menu' array listing popular dishes).

Ans:

```
db.restaurants.insertMany([
{
  name: "Pizza Hub",
  cuisine: "Italian",
  rating: 4.3,
  location: "Surat",
  menu: ["Margherita Pizza", "Garlic Bread",
"Pasta"]
},
{
  name: "Dragon Wok",
  cuisine: "Chinese",
  rating: 4.1,
  location: "Vadodara",
  menu: ["Noodles", "Manchurian", "Fried
Rice"]
}
```

```
},  
{  
  name: "Burger Point",  
  cuisine: "Fast Food",  
  rating: 4.0,  
  location: "Rajkot",  
  menu: ["Cheese Burger", "French Fries", "Cold  
Coffee"]  
}  
])
```

4) Retrieve all documents from the 'restaurants' collection and display them in the mongo shell. Identify which BSON types are used for each

field.

Hint:
Look for String, Number, Array, and Object
types in your documents.

Ans:

```
Db.restaurants.find().pretty()
```

```
use demo_data
switched to db demo_data
use foodieApp
switched to db foodieApp
db.restaurants.insertOne({
  name: "Spice Garden",
  cuisine: "North Indian",
  rating: 4.5,
  location: "Ahmedabad"
})
{
  acknowledged: true,
  insertedId: ObjectId('6a2a384e9b0fc4ca3eb33ac5')
}
db.restaurants.insertMany([
{
  name: "Pizza Hub",
  cuisine: "Italian",
  rating: 4.3,
  location: "Surat",
  menu: ["Margherita Pizza", "Garlic Bread", "Pasta"]
},
```

```
{
  name: "Dragon Wok",
  cuisine: "Chinese",
  rating: 4.1,
  location: "Vadodara",
  menu: ["Noodles", "Manchurian", "Fried Rice"]
},
{
  name: "Burger Point",
  cuisine: "Fast Food",
  rating: 4.0,
  location: "Rajkot",
  menu: ["Cheese Burger", "French Fries", "Cold Coffee"]
}
])
{
  acknowledged: true,
  insertedIds: {
    '0': ObjectId('6a2a38569b0fc4ca3eb33ac6'),
    '1': ObjectId('6a2a38569b0fc4ca3eb33ac7'),
    '2': ObjectId('6a2a38569b0fc4ca3eb33ac8')
  }
}
```

```
db.restaurants.find().pretty()
{
